### Countless custom options available!

Contact Wikk for custom short specs or budgetary and design assistance.

**To ensure competitive bidding by qualified Sub Contractors, please specify Wikk's products in CSI Divisions: 8, 14, or 28.**

## Features & Benefits

### Competitive 4-week lead time

Ships from the factory to the job site in 20 business days or less.

### Secure mounting

Custom in-ground concealed sleeve base is embedded below floor and secured with 1/2" diameter masonry anchors. Bollard is fastened to the base with stainless hardware above finished ground. Body can be detached from base without disturbing flooring for maintenance or replacement.

### Welded angle top

Bollard cap is welded on and ground smooth for a watertight, seamless finish. Angled to prevent rainwater pooling or litter accumulation.

### Preps for three devices

Includes cutouts for mounting intercoms, card readers, or actuators. Preps are customizable to fit make/model specified for each device.

### Corrosion resistant body

Durable stainless steel construction for long-lasting use in both indoor and outdoor locations.
