Countless custom options available!

Contact Wikk for custom short specs or budgetary and design assistance.

To ensure competitive bidding by qualified Sub Contractors, please specify Wikk's products in CSI Divisions: 8, 14, or 28.

Features & Benefits

Competitive 4-week lead time

Ships from the factory to the job site in 20 business days or less.

Secure mounting

Custom in-ground concealed sleeve base is embedded below floor and secured with 1/2" diameter masonry anchors. Bollard is fastened to the base with stainless hardware above finished ground. Body can be detached from base without disturbing flooring for maintenance or replacement.

Welded angle top

Bollard cap is welded on and ground smooth for a watertight, seamless finish. Angled to prevent rainwater pooling or litter accumulation.

Prep for one device

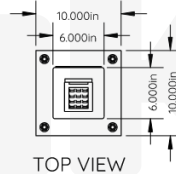

Includes cutout for mounting an actuator or other device. Prep is customizable to fit make/model specified for device.

Corrosion resistant body

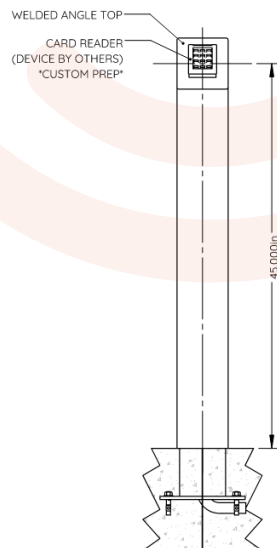

Durable stainless steel construction for long-lasting use in both indoor and outdoor locations.

Surface Mount Access Panel (Optional)

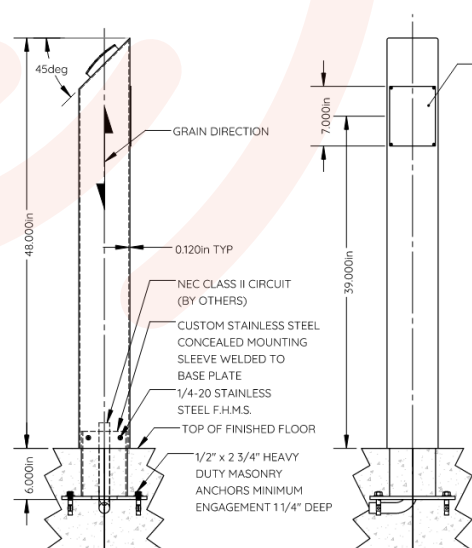

Removable access panel on back for maintenance.
