Countless custom options available!

Contact Wikk for custom short specs or budgetary and design assistance.

To ensure competitive bidding by qualified Sub Contractors, please specify Wikk's products in CSI Divisions: 8, 14, or 28.

Features & Benefits

Competitive 4-week lead time

Ships from the factory to the job site in 20 business days or less.

Simple installation

Welded 3/8" thick base plate with 4 mounting holes for easy install of bollard with standard tools. Bollard can be embedded up to 12" below flooring.

Secure mounting

1/2" diameter masonry anchors provided for mounting in concrete or other flooring materials.

Welded flat top

Bollard cap is welded on and ground smooth for a watertight, seamless finish.

Preps for two devices

Includes cutouts for mounting intercoms, card readers, or actuators. Preps are customizable to fit make/model specified for each device.

Corrosion resistant body

Durable stainless steel construction for long-lasting use in both indoor and outdoor locations.
