Features & Benefits

Competitive 2-day lead time
Ships from the factory to the job site in two business days or less.

Simple installation
Easy install of base mounting bracket and bollard body with stainless hardware and standard tools. Body can be detached from base without disturbing flooring for maintenance or replacement.

Secure mounting
1/2" diameter masonry anchors provided for mounting on pavers, concrete, or other flooring materials.

Weather-resistant cap secured with stainless steel set screws
Easy removal of leak-free mortised black marine board cap to access internal wiring. Cap material is resistant to fading or cracking in all environments.

Field prep option
Bollard leaves the factory without device cutouts for the flexibility to prep in the field/on site.

Robust structure
Solid and reliable aluminum construction for both indoor and outdoor locations.
